Good morning, Tom,

My name is Kristin Sprinkle and the firm I work for, E2 Inc., has been asked by US EPA's Abandoned Mine Lands Team to work with Eva Hoffman to write a case study documenting the successful cleanup and reuse of the Kennecott site. We are working closely with EPA and State officials, current and former Kennecott staff, and other local stakeholders to capture the whole story. Thus far, we have spent about an hour of time each discussing the site with Eva Hoffman, Doug Bacon, Jon Calendar, and Jon Cherry, and all have indicated that the cooperation between agencies played a major role at the site. Doug Bacon and Eva Hoffman both recommended that we speak with you.

We are hoping you can spare half an hour to an hour to talk to us about the cleanup and reuse of the site from your perspective. I am offering the following two times as opportunities to talk, but please let me know if there are times or days that would work better for you.

Wednesday, June 30: 4 PM EST
Thursday, July 1: 11 AM EST

Many thanks,

Kristin
